

SKILLFORGE

Social Media Content Plan

Project 1 — Digital Marketing Industrial Training
DecodeLabs | Batch: 2026

Prepared by: Vansh Singhal | Date: June 2026

Brand: SkillForge	Platform: LinkedIn + Instagram	Duration: 30 Days
-------------------	--------------------------------	-------------------

1. Brand Overview

SkillForge is an EdTech platform helping students (18-25) build industry-ready tech skills through live projects, mentorship, and AICTE-verified certifications. Target market: Engineering & BCA students across Tier 2 & Tier 3 Indian cities.

Brand Identity

- **Brand Name:** SkillForge
- **Tagline:** Build Skills. Forge Careers.
- **Industry:** EdTech / Career Development
- **Platforms:** LinkedIn + Instagram
- **Tone:** Empowering, Relatable, Credible

2. Target Audience

2A. Primary Audience — LinkedIn (B2B)

The Buying Committee: CIOs of colleges, Training & Placement Officers (TPOs), and Faculty Heads seeking verified, placement-oriented training programs for their students.

- **Age:** 30–55
- **Roles:** TPOs, Faculty, HoDs, College Directors
- **Behavior:** Research-driven. They observe quietly, validate credentials, avoid sales pitches.
- **Pain Point:** Difficulty finding AICTE-recognized programs with real placement data.
- **Decision Trigger:** Peer testimonials, government validation (MSME/AICTE), placement stats.

2B. Secondary Audience — Instagram (B2C)

End Users: Engineering, BCA, and MCA students seeking career-relevant skills beyond their college curriculum.

- **Age:** 18–25
- **Roles:** Undergraduate / Postgraduate students

- **Behavior:** Visual consumers. Seek relatability, peer validation, and aspirational content.
- **Pain Point:** Gap between college theory and actual job requirements.
- **Decision Trigger:** Seeing peers build real apps and get placed.

3. Content Pillars

Three core pillars drive all content, aligned with the Psychological Funnel: **Problem Awareness** → **Proving Authority** → **Solution Authority**.

Pillar 1: Problem-First Thought Leadership (LinkedIn)

Stop selling the solution. Start validating the problem. Explain WHY a pain point exists.

- Post type: Data-backed infographics, text posts, carousel slides
- Example: "Why 70% of CS graduates struggle to get their first job"
- Hook: Education buyers want to feel understood, not sold to.
- CTA: "What's the #1 skill gap in your campus?" (conversation starter)

Pillar 2: User-Generated Content & Social Proof (Instagram)

Real photos outperform professional shots. Showcase 'imperfect' visuals of interns on real projects.

- Post type: Reels, carousels, behind-the-scenes stories
- Example: Intern building an AI Dashboard — screen + coffee + code
- Trigger: Peer validation. Seeing peers ship real apps is the strongest social proof.
- CTA: "Tag a friend who needs this" / "DM us to join the next batch"

Pillar 3: The Art of the CTA (Both Platforms)

Use low-friction verbs. Avoid 'Submit'. Use 'Start', 'Get', or 'Claim'. Place social proof next to CTA.

- LinkedIn CTA: "Start My Career Track — Verified by AICTE"
- Instagram CTA: "Claim Your Seat — Next Batch Starts July 7"
- Breadcrumb: Ask for small commitment first before the big ask (enroll).

4. 30-Day Posting Schedule

Week-by-Week Strategy

Week	Theme	Hook	Content Format
Week 1	Problem Awareness	Theory vs. Practice Gap	LinkedIn Infographic + Instagram Reel
Week 2	Authority Building	Proving Legitimacy	LinkedIn Document (MSME/AICTE) + Instagram Carousel
Week 3	Technical Value	Reciprocity (Free Value)	LinkedIn Code Post + Instagram BTS
Week 4	Conversion	FOMO & Urgency	LinkedIn CTA Post + Instagram Countdown Story

Daily Posting Schedule

Day	Platform	Content Theme	Format	Trigger
Monday	LinkedIn	Thought Leadership	Text / Carousel	Trust
Tuesday	Instagram	Behind-the-Scenes	Reel	Vibe
Wednesday	LinkedIn	Data / Infographic	Carousel	Trust
Thursday	Instagram	Student Spotlight	Carousel	Social Proof
Friday	Both	Engagement Post	Poll / Q&A; / Story	Urgency
Saturday	Instagram	Motivation / Tip	Quote Reel	Vibe
Sunday	LinkedIn	Industry Insight	Long-form Text	Authority

5. Sample Content Ideas (Week 1)

LinkedIn Post — Monday (Week 1)

■ *Why LMS fatigue is hurting college adoption rates. Most colleges invest in LMS platforms — but only 30% of students use them beyond the first week. The problem isn't the technology. It's the lack of project-based context. We asked 500 TPOs: 'What's your #1 training challenge?' — 78% said: 'Students don't apply theory to real problems.' This is the gap SkillForge was built to close. ■ Drop your campus city in the comments. We're mapping the skill gap across India.*

Instagram Reel Concept — Tuesday (Week 1)

Visual: Intern at laptop, messy desk, code on screen. Raw, authentic. Caption: 'This is what Day 3 of the AI Dashboard project looks like ■ No filters. Just real builds. Tag someone who should be doing this → Batch starts July 7. Link in bio.' Hashtags: #SkillForge #TechInterns #LearnByBuilding #EdTech #AICTE

6. Success Metrics

Quality of Lead > Quantity of Likes. Measure what matters.

Platform	Metric	Target	Why It Matters
LinkedIn	Profile Views from TPOs/HRs	1,689+ / month	Decision maker reach
LinkedIn	B2B Connection Requests	50+ per month	Sales pipeline signal
Instagram	DM Enquiries (enrollments)	3.16x increase	Sales cycle velocity
Instagram	Saves & Shares on Reels	200+ per post	Content resonance
Both	Follower Growth Rate	15% month-on-month	Organic reach building
Both	CTA Click-Through Rate	5%+ on CTAs	Conversion readiness

7. Social Media Logbook Template

Track every post. Consistency beats intensity.

#	Platform	Content Type	Trigger	Status
1	LinkedIn	Reel	Trust	■ Live
2	Instagram	Carousel	Vibe	■ Draft
3	LinkedIn	Text Post	Urgency	■ Review
4	Instagram	Reel	Vibe	■ Live
5	LinkedIn	Carousel	Trust	■ Scheduled

Conclusion

The absolute best way to master Digital Marketing is through hands-on practice, not just theory. This content plan for SkillForge demonstrates a structured roadmap built on audience logic, platform psychology, and consistent execution. By following this 30-day strategy, SkillForge can move its audience from Problem Awareness to Solution Authority — and a conversion is always a promise kept.
